

Worldwide Dental Trauma and Emergency Callout Insurance

Emergency Callout – cover can be provided by any dentist worldwide who agrees to treat your child. You simply pay the emergency callout charge to the dentist concerned and collect a receipted invoice. This will then be processed through the practice for reimbursement from the insurers and you will be refunded the callout fee, minus the excess, up to the policy limits. This cover is to provide immediate pain relief only; no additional or restorative treatment fees can be claimed. Your child should return to the practice in normal hours for any further treatment required.

Dental Trauma – cover is provided should your child be unfortunate enough to suffer a dental trauma, for example, as a result of a road traffic accident or an accident at home. The insurers will settle the claim up to the policy limits and you will need to pay any relevant excess.

Hospitalisation – benefit is provided should your child have to stay in hospital as a result of dental trauma.

Permanent Facial Disfigurement – benefit is provided should your child be scarred on the neck or face as a result of the accident.

Oral Cancer – a payment will be paid upon diagnosis of oral cancer.

Parental Redundancy Protection – plan premiums paid for up to one year.

A leaflet giving details of the insurance cover, limits, excesses and exclusions is available at the practice.

Statement of Price

A total premium of £0.51 per month and for the initial period, as defined in the Certificate of Insurance (£0.49 plus Insurance Premium Tax of £0.02) for Dental Plan patients is payable for the Worldwide Dental Trauma and Emergency Callout Insurance.* There may be other taxes that will not be payable through us. Children's
dental health plan

Children are born free of dental disease, yet by adulthood a significant proportion of the population has active gum disease and most people have experienced some tooth decay or even tooth loss. Our aim is to provide your child with the best dental care available to secure their dental health. We ask patients to bring their children with them from birth so that we can see them regularly to help them grow up free from dental disease.

Hi! My name's Dennis. I want you all to have beautiful sparkling teeth like mine, here are a few tips from me to help keep yours perfect!

1. Visit your dentist regularly to help stop problems before they start!
2. Eat well - not too many sweets!!
3. Brush your teeth twice a day
4. Brush with great tasting toothpaste and a soft brush made just for kids!

I need your help! I've lost my toothbrush...can you follow the toothpaste to find it for me..?

Brush your teeth gently.

Don't squash the bristles - that means you're brushing too hard. Replace your toothbrush every two to three months, or as soon as the bristles are worn or bent. A worn-out toothbrush does not clean your teeth properly and can hurt your gums. You should also replace your toothbrush after you've had a cold.

Where are they?

There are four baby teeth hidden on this page, can you help the tooth fairy find them?

What does the dentist say when his wife baked a cake?
A: Can I do the filling?
